

Mentoring: Impact 2018/19

Business mentors and language mentors meet with one student or a group of students in Years 10-13 (aged 14-18) once a month at company offices. Business mentors inspire the students to make key decisions about their future career and help them develop crucial employability skills. Language mentors help students increase their confidence in speaking a modern foreign language and discuss how languages are used in the world of work.

Volunteer Feedback

12

companies were able to offer work experience placements to their mentees as a result of the positive mentoring relationships built

Mentors said 'I have...'

“Mentoring gave my mentee a different perspective - one outside of family and teachers. It was an opportunity to bounce off ideas and think about the future in a way that students don't often get a chance to. I helped my mentee think about how to manage his time and plan towards his future career. Mentoring improved my communication skills, helped me develop my mentoring and management skills and gave me a lot of enjoyment to give something back.”

Volunteer, Aon

Student Impact

“The mentoring scheme has made me do things outside the box...out of my comfort zone in order to adapt to and learn more about the business environment.”

Year 12 student, Bishop Challoner mentored by a Finance Manager from BennBridge

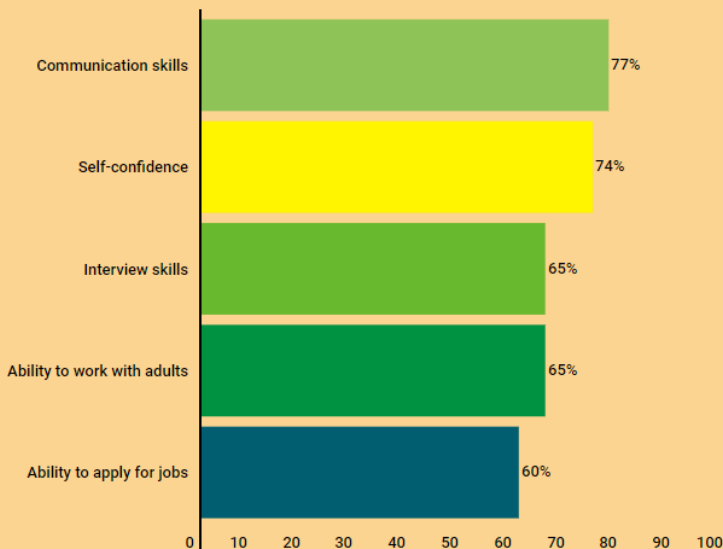

80%

“I have been given an insight into the law industry which was amazing.”

Year 12 student, Stepney Green College mentored by a trainee solicitor from Clyde & Co
